Position Requirements

Job Description

Our environment includes an existing production POS, voucher, telecom recharge and payment system. The developer must be capable of understanding and maintaining the existing legacy system while also developing newer backend integrations.

Core Environment

C#

.NET Framework / ASP.NET

Microsoft SQL Server

T-SQL

IIS / Windows Server

REST APIs, HTTP and JSON

Legacy ASMX Web Services

SOAP, XML and WSDL

Third-party API integrations

Visual Studio

Git

Postman / SoapUI

POS and voucher/recharge transaction systems

The existing architecture includes flows such as:

POS ' .NET Backend/API ' SQL Server ' Telecom/Payment Provider API ' Response ' Database/POS

The developer may need to understand old C# projects, troubleshoot production transactions, work with SQL databases and stored procedures, maintain existing SOAP integrations, and implement new REST APIs.

Mandatory Requirements

1–4 years of relevant .NET/backend development experience

Strong C# fundamentals

.NET Framework / ASP.NET experience

Strong Microsoft SQL Server knowledge

Good T-SQL skills

Joins, transactions, indexes and stored procedures

REST API integration

HTTP, JSON and API authentication

Visual Studio

Basic IIS knowledge

Debugging and troubleshooting ability

Ability to understand and modify an existing codebase

Preferred Skills

ASMX Web Services

SOAP / XML / WSDL

ASP.NET Core / modern .NET

Advanced SQL Server troubleshooting and optimization

Windows Server

SoapUI

Telecom/recharge systems

POS systems
Payment integrations
Third-party API integrations
Legacy-system modernization
