- BE in Computer Science and Engineering**
Hindusthan college of engineering and technology, Coimbatore
Computer Science and Engineering
2019 - 2023

Employment History

- **Full Stack Developer**

Scrutinysoft Solutions

9/1/2024 - Present

Developed 4+ responsive MERN applications serving 2,000+ users with reusable component architecture. Implemented Redux and Context API for state management, reducing state-related bugs by 50%. Integrated RESTful APIs with JWT authentication achieving 99.5% uptime through error handling. Collaborated in agile teams to deliver 15+ production features on schedule with code reviews

- **Full Stack Software Developer**

Edureka

8/1/2023 - 2/1/2024

Developed 5+ web applications using React.js with responsive design improving engagement by 25%. Created 20+ reusable React components with modern JavaScript (ES6+) and UI enhancements. Integrated backend services with RESTful APIs, troubleshooting 30+ application issues. Participated in agile sprints including code reviews and daily standups for quality standards

Position Requirements

Job Description

Our environment includes an existing production POS, voucher, telecom recharge and payment system. The developer must be capable of understanding and maintaining the existing legacy system while also developing newer backend integrations.

Core Environment

C#

.NET Framework / ASP.NET

Microsoft SQL Server

T-SQL

IIS / Windows Server

REST APIs, HTTP and JSON

Legacy ASMX Web Services

SOAP, XML and WSDL

Third-party API integrations

Visual Studio

Git

Postman / SoapUI

POS and voucher/recharge transaction systems

The existing architecture includes flows such as:

POS ' .NET Backend/API ' SQL Server ' Telecom/Payment Provider API ' Response ' Database/POS

The developer may need to understand old C# projects, troubleshoot production transactions, work with SQL databases and stored procedures, maintain existing SOAP integrations, and implement new REST APIs.

Mandatory Requirements

1–4 years of relevant .NET/backend development experience

Strong C# fundamentals

.NET Framework / ASP.NET experience

Strong Microsoft SQL Server knowledge

Good T-SQL skills

Joins, transactions, indexes and stored procedures

REST API integration

HTTP, JSON and API authentication

Visual Studio

Basic IIS knowledge

Debugging and troubleshooting ability

Ability to understand and modify an existing codebase

Preferred Skills

ASMX Web Services

SOAP / XML / WSDL

ASP.NET Core / modern .NET

Advanced SQL Server troubleshooting and optimization

Windows Server

SoapUI

Telecom/recharge systems

POS systems

Payment integrations

Third-party API integrations

Legacy-system modernization
