Employment History

- **SAP ABAP Intern**

HICS Technology Pte Ltd

12/1/2025 - 3/1/2026

Gained hands-on exposure to core SAP ABAP concepts including data types, internal tables, and control structures. Developed Classical and ALV reports to display and manage business data. Worked with Data Dictionary (DDIC) objects such as tables, data elements, and domains. Practiced SELECT queries and data retrieval techniques from SAP database tables. Created simple Smart Forms / SAP Scripts for document generation. Performed basic debugging and error analysis using ABAP debugger tools. Collaborated with team members to understand functional requirements and translate them into technical logic

Position Requirements

Job Description

Our environment includes an existing production POS, voucher, telecom recharge and payment system. The developer must be capable of understanding and maintaining the existing legacy system while also developing newer backend integrations.

Core Environment

C#

.NET Framework / ASP.NET

Microsoft SQL Server

T-SQL

IIS / Windows Server

REST APIs, HTTP and JSON

Legacy ASMX Web Services

SOAP, XML and WSDL

Third-party API integrations

Visual Studio

Git

Postman / SoapUI

POS and voucher/recharge transaction systems

The existing architecture includes flows such as:

POS ' .NET Backend/API ' SQL Server ' Telecom/Payment Provider API ' Response ' Database/POS

The developer may need to understand old C# projects, troubleshoot production transactions, work with SQL databases and stored procedures, maintain existing SOAP integrations, and implement new REST APIs.

Mandatory Requirements

1–4 years of relevant .NET/backend development experience

Strong C# fundamentals

.NET Framework / ASP.NET experience

Strong Microsoft SQL Server knowledge

Good T-SQL skills

Joins, transactions, indexes and stored procedures

REST API integration
HTTP, JSON and API authentication
Visual Studio
Basic IIS knowledge
Debugging and troubleshooting ability
Ability to understand and modify an existing codebase
Preferred Skills
ASMX Web Services
SOAP / XML / WSDL
ASP.NET Core / modern .NET
Advanced SQL Server troubleshooting and optimization
Windows Server
SoapUI
Telecom/recharge systems
POS systems
Payment integrations
Third-party API integrations
Legacy-system modernization
